

The Creative Industries in New Jersey State House Districts Report

This Creative Industries: Business & Employment in the Arts report provides a research-based approach to understanding the scope and economic importance of the arts in New Jersey State House Districts. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

The Creative Industries in New Jersey State House District 1 State Representative Bob Andrzejczak

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 1**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

359 Arts-Related Businesses Employ 1,134 People

New Jersey State House District 1 is home to 359 arts-related businesses that employ 1,134 people. The creative industries account for 3.1 percent of the total number of businesses located in New Jersey State House District 1 and 1 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 4 State Representative Gabriela M Mosquera

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 4**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

341 Arts-Related Businesses Employ 1,506 People

New Jersey State House District 4 is home to 341 arts-related businesses that employ 1,506 people. The creative industries account for 4 percent of the total number of businesses located in New Jersey State House District 4 and 2.2 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

The Creative Industries in New Jersey State House District 7 State Representative Troy Singleton

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 7**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

428 Arts-Related Businesses Employ 2,111 People

New Jersey State House District 7 is home to 428 arts-related businesses that employ 2,111 people. The creative industries account for 3.9 percent of the total number of businesses located in New Jersey State House District 7 and 1.6 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 8 State Representative Christopher J. Brown

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 8**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy.

464 Arts-Related Businesses Employ 1,047 People

New Jersey State House District 8 is home to 464 arts-related businesses that employ 1,047 people. The creative industries account for 3.7 percent of the total number of businesses located in New Jersey State House District 8 and 1.1 percent of the people they employ. The map above plots the creative industries, with each star representing a unique arts business establishment.

Nationally, 702,771 businesses are involved in the creation or distribution of the arts, and they employ 2.9 million people. This represents 3.9 percent of all U.S. businesses and 1.9 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of January 2015.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses register, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, should be considered conservative.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 7,500 state legislative districts, and all 3,143 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 11 State Representative Caroline Casagrande

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 11**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy.

707 Arts-Related Businesses Employ 2,214 People

New Jersey State House District 11 is home to 707 arts-related businesses that employ 2,214 people. The creative industries account for 4.3 percent of the total number of businesses located in New Jersey State House District 11 and 1.6 percent of the people they employ. The map above plots the creative industries, with each star representing a unique arts business establishment.

Nationally, 702,771 businesses are involved in the creation or distribution of the arts, and they employ 2.9 million people. This represents 3.9 percent of all U.S. businesses and 1.9 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of January 2015.

The Creative Industries in New Jersey State House District 14 State Representative Daniel R Benson

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 14**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

397 Arts-Related Businesses Employ 2,227 People

New Jersey State House District 14 is home to 397 arts-related businesses that employ 2,227 people. The creative industries account for 3.6 percent of the total number of businesses located in New Jersey State House District 14 and 1.5 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The creative industries account for 3.1 percent of the total number of businesses located in New Jersey State House District 17 and 1.3 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 17 State Representative Joe Danielson

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 17**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy.

353 Arts-Related Businesses Employ 1,935 People

New Jersey State House District 17 is home to 353 arts-related businesses that employ 1,935 people. The creative industries account for 3.2 percent of the total number of businesses located in New Jersey State House District 17 and 1.5 percent of the people they employ. The map above plots the creative industries, with each star representing a unique arts business establishment.

Nationally, 702,771 businesses are involved in the creation or distribution of the arts, and they employ 2.9 million people. This represents 3.9 percent of all U.S. businesses and 1.9 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses register, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, should be considered conservative.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 7,500 state legislative districts, and all 3,143 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 20 State Representative Jamel C Holley

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 20**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

296 Arts-Related Businesses Employ 1,592 People

New Jersey State House District 20 is home to 296 arts-related businesses that employ 1,592 people. The creative industries account for 2.9 percent of the total number of businesses located in New Jersey State House District 20 and 1.6 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

New Jersey State House District 23 is home to 524 arts-related businesses that employ 2,373 people. The creative industries account for 4 percent of the total number of businesses located in New Jersey State House District 23 and 1.8 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 24 State Representative Alison Littell McHose

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 24**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy.

462 Arts-Related Businesses Employ 1,330 People

New Jersey State House District 24 is home to 462 arts-related businesses that employ 1,330 people. The creative industries account for 3.7 percent of the total number of businesses located in New Jersey State House District 24 and 1.8 percent of the people they employ. The map above plots the creative industries, with each star representing a unique arts business establishment.

Nationally, 702,771 businesses are involved in the creation or distribution of the arts, and they employ 2.9 million people. This represents 3.9 percent of all U.S. businesses and 1.9 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of January 2015.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 27 State Representative John F McKeon

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 27**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

918 Arts-Related Businesses Employ 3,562 People

New Jersey State House District 27 is home to 918 arts-related businesses that employ 3,562 people. The creative industries account for 5.4 percent of the total number of businesses located in New Jersey State House District 27 and 1.3 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 31 State Representative Nicholas Chiaravalloti

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 31**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

301 Arts-Related Businesses Employ 1,078 People

New Jersey State House District 31 is home to 301 arts-related businesses that employ 1,078 people. The creative industries account for 3.7 percent of the total number of businesses located in New Jersey State House District 31 and 1 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

Research Notes:

- These Creative Industries data are based solely on active U.S. businesses that are registered with Dun & Bradstreet. Because not all businesses are registered, our analyses indicate an under-representation of arts businesses (particularly those that are nonprofit arts organizations and individual artists). The data in this report, therefore, are an undercount.
- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 34 State Representative Thomas P Giblin

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 34**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

551 Arts-Related Businesses Employ 1,787 People

New Jersey State House District 34 is home to 551 arts-related businesses that employ 1,787 people. The creative industries account for 4.9 percent of the total number of businesses located in New Jersey State House District 34 and 1.7 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.

- To define the Creative Industries, Americans for the Arts selected 644 8-digit Standard Industrial Classification codes that represent for-profit and nonprofit arts-centric businesses (out of more than 18,500 codes representing all industries).
- Reports for all 435 U.S. Congressional Districts, the 50 states and the District of Columbia, the 6,766 state legislative districts, and all 3,141 U.S. counties—as well as a full suite of user tools and a comprehensive list of the industries included in this analysis—are available for download at www.AmericansForTheArts.org/CreativeIndustries.

The Creative Industries in New Jersey State House District 38 State Representative Tim Eustace

This *Creative Industries: Business & Employment in the Arts* report provides a research-based approach to understanding the scope and economic importance of the arts in **New Jersey State House District 38**. The creative industries are composed of arts businesses that range from nonprofit museums, symphonies, and theaters to for-profit film, architecture, and design companies. Arts businesses and the creative people they employ stimulate innovation, strengthen America's competitiveness in the global marketplace, and play an important role in building and sustaining economic vibrancy. In a global economy, the creative industries are durable and enduring local employers.

541 Arts-Related Businesses Employ 2,424 People

New Jersey State House District 38 is home to 541 arts-related businesses that employ 2,424 people. The creative industries account for 4 percent of the total number of businesses located in New Jersey State House District 38 and 1.6 percent of the people they employ. The map above plots the creative industries, with each dot representing a unique arts business establishment.

Nationally, 673,656 businesses are involved in the creation or distribution of the arts, and they employ 3.48 million people. This represents 4.0 percent of all U.S. businesses and 2.0 percent of all U.S. employees—demonstrating statistically that the arts are a formidable business presence and broadly distributed across our communities. The source for these data is Dun & Bradstreet, the most comprehensive and trusted source for business information in the United States. These data are current as of April 2017.

Americans for the Arts thanks The Andrew W. Mellon Foundation and the Doris Duke Charitable Foundation for their generous support of our work to produce the *Creative Industries: Business & Employment in the Arts* reports.
